NOTES FOR DDCI

29 November 1963

1. You asked me to put the heat on to get the DIA study on Soviet missile hardness after you read the recent [   ] report. Sherman Kent says we have received the DIA report. It is vast, voluminous and extremely complicated. It is currently under study here. If you would like, I can arrange for Howie Stoertz to come by and brief you on this matter.
          YES _____
          NO _____ ✓

25X1

3. I have checked with Bill Colby who thinks it is a fine idea to have General Waters come by for an Agency briefing. Bill and his division will work up a presentation. The Agency briefing officer, [   ] can cover community and Agency organization. Bill can provide a rundown of the situations in the Far East and can cover briefly our war planning involved with USARPAC. The suggestion is that we do this during the morning hours and then ask General Waters to remain for lunch. We can gear this to any day suitable to Waters, but as you know Tuesdays and Fridays would be best.

25X1

4. I have now worked it out so that the briefing of the new Marine Corps Commandant will take place here on the morning of 6 December beginning at 10:30. General Greene will bring Lt. General Hayes who will be Assistant Commandant, Major General Chapman, who will be the new Chief of Staff, Major General Cushman, Assistant Chief of Staff, G-3; and Major General Buse, Assistant Chief of Staff for Plans and Programs. I have told Elder about this so that he can invite the DCI to a scheduled 12:30 luncheon. Kirk and I think the following program would be a good one:

Time	Item
10:30 - 10:45	DDCI to cover National Intelligence, including USIB, Special Group, role of DCI, etc.
10:45 - 11:45	Kirk to cover the Agency organization, mission, operations, etc.
11:45 - 12:15	[ ] to cover CIA and its paramilitary role.
12:15 - 12:45	Visit Paramilitary display
12:45 - 1300	Visit Intelligence publications display
1300 - 1400	Lunch with DCI, DDCI and Ex Dir [ ]

Is all this OK?
